EXPERIENCE

Junior Back-End PHP Developer

Self-Learner

01/2021 - Present

- I have 1+ year of back-end learning using PHP (oop) and laravel framework.
- have experience dealing with databases using SQL Databases
- My main operating system is ubuntu so I have experience interacting with Linux OS.

WordPress Implementer

cmdserv

06/2021 - 01/2022

- Implement and host above 10+ clients' websites, this allowed me to deal with shared, VPS and dedicated servers (CentOS, Oracle RedHat).
- some of project's I've done :

cmdserv.com (Digital Marketing Agency)

qwamy.org

highmood.net (Spanish juice brand)

Junior Front-End Developer

devamr

02/2019 - 05/2021

- self-learning: HTML, CSS, bootstrap, sass, and js.
- I have experience dealing with front-end and how to make it interact with back-end
